

JOSUE GONZALEZ

Business Intelligence & Data Analyst

Panama, Panama | (+507) 6762-0310 | josue41999@gmail.com | linkedin.com/in/josue-gonza

PROFESSIONAL SUMMARY

Bilingual Business Intelligence and Data Analyst with 3+ years of experience in analytics, reporting and automation. Hands-on experience with Power BI (DAX), SQL, Databricks (PySpark), advanced Excel and Power Query, delivering solutions for FP&A, operations and executive stakeholders. Focused on turning complex data into trustworthy information for decision-making.

PROFESSIONAL EXPERIENCE

Estée Lauder Companies | Business Intelligence / Data Analyst | Nov 2025 - Present

Financial reporting and analytics support for Financial Strategy and executive teams across multiple regions and brands.

- Develop and maintain a global Power BI financial dashboard with 20+ views, consolidating sales and performance KPIs for FP&A teams.
- Analyze Retail Sales, Gross Sales YoY, Net Sales, Account Contribution and Commercial Investments across regions, channels and brands.
- Led the migration of Power Query transformations to SQL views and aggregate tables in Databricks, removing bottlenecks in multi-million-row datasets.
- Built SQL and PySpark logic to transform parent-child financial hierarchies into structures optimized for scalable Power BI analysis.
- Consolidated Units, Promotional Units and Brand Growth into a centralized Master Report, removing external dependencies and improving maintainability.
- Investigated duplicates and data discrepancies across multi-source pipelines, validating KPIs against the CPM source of truth in 6 regions.
- Prepared CFO-level financial presentations, translating KPI movements into clear conclusions and actionable recommendations.

Insignia Resources | Pre-Billing Specialist | Jul 2022 - Nov 2025

US home healthcare staffing operation focused on data validation, automation and quality control before billing.

- Validated and processed approximately 300 daily patient and caregiver records, ensuring data integrity and compliance with internal audit and HIPAA standards.
- Built an operational Excel dashboard for a 17-person team, improving process visibility and efficiency by 30%.
- Automated daily and weekly reporting with Macros, Power Query and CSV files, removing more than one hour of manual work per day and saving about 10 hours weekly.
- Developed and presented an Excel/VBA database prototype with forms, structured search and incident tracking for approximately 10 users.

Connect International | Collection Specialist | Sep 2019 - Jul 2022

US financial services operation with responsibilities in reporting, payments and data integrity.

- Produced daily Excel reports on customer accounts, identifying payment trends, disputes and resolution metrics.
- Processed reversed payments, arrangements and account adjustments while maintaining accurate CRM records and regulatory compliance.
- Supported analysis of escalated cases involving financial or data discrepancies.
